Irrigated land in the country

4290. SHRI MATILAL SARKAR: Will the Minister of WATER RESOURCES be pleased to state:

(a) the percentage of irrigated land in the country and in each State and Union Territory;

(b) the quantity of land that has come under irrigation in the country and in each State and union territory during the period from April, 2004 to 31 December, 2007; and

(c) the programme of the Government to extend irrigation during 2008-09 in the country and in the North-Eastern States in particular?

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRI JAI PRAKASH NARAYAN YADAV): (a) to (c) Out of the estimated ultimate irrigation potential of 139.9 million hectare, the irrigation potential of 102.7 million hectare has been reported to be created by various State Governments upto March 2007 which also account for irrigation more than once in a year on the same land. State-wise detail of the total irrigation potential created is given in the Statement (*See* below). The information about irrigation potential created upto December, 2007 is not available.

Irrigation being a State subject, irrigation projects are conceived, planned and implemented by the respective State Governments as per their own priority. However, Government of India provides Central assistance to the State Governments for completion of on-going irrigation projects under the Accelerated Irrigation Benefit Programme (AIBP) including the North-Eastern States. From 1999-2000, the scope of Accelerated Irrigation Benefit Programme was extended to include Minor Irrigation (MI) schemes for special category states which *inter-alia* include North-Eastern States. The overall target for creation of irrigation potential during Eleventh Plan (2007—12) is 16 million hectare.
